

ABQAURP Online Course Instructions and Frequently Asked Questions

Once you sign into the ABQAURP website at www.abqaurp.org, Click on the **My Education** button to navigate to the **Center for Continuing Education**.

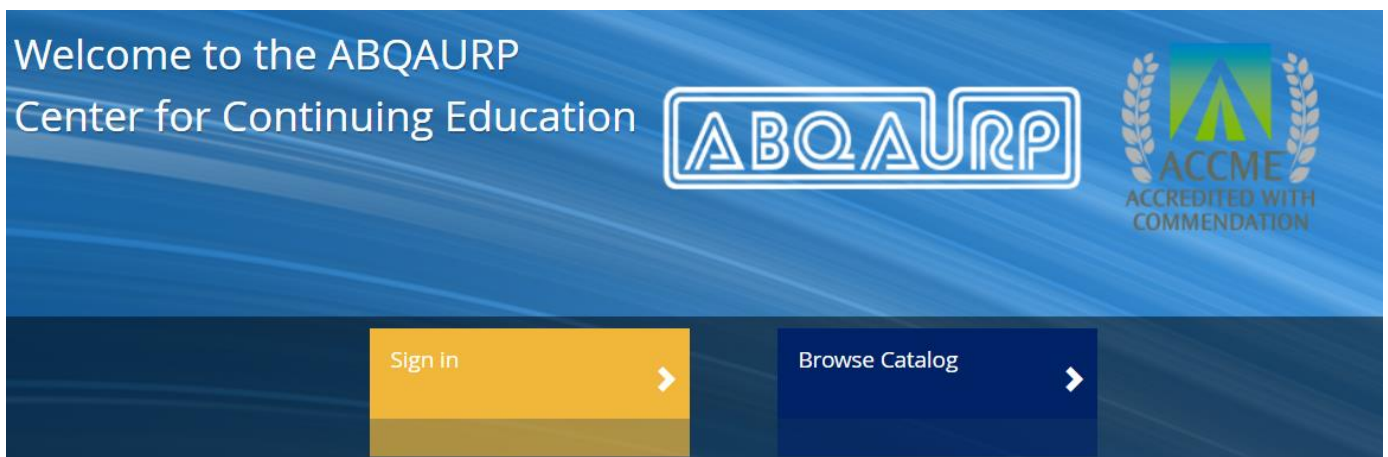

Here, you can go to your **Learning Center** to find your courses or online course transcript.

You may also click **Browse Catalog** to view and purchase all available courses.

Your most recently purchased course will be previewed on your Learning Center screen, click here to access, or click on your Learning Center to view.

If you see yellow **Sign In** button, please click the Sign In button to log in again.

To begin taking the course modules, click the **“Launch prework”** button to start each course. You will be required to take a **Pre-test**. The pre-test is not graded and you will not view the results. The pre-test scoring is used by the education department to analyze practice gaps and measure learning objectives.

The screenshot shows two course cards. The first card is for 'Removing Barriers to Achieve Your Population Health Goals', which is 'EARN UP TO 1 CME/CE' and is 0% complete. It has a 'Launch Prework' button. The second card is for 'Case Management Challenges and Opportunities', also 'EARN UP TO 1 CME/CE', but it is 'Not Started' and also has a 'Launch Prework' button. Both cards show an open date range from 06/18/2020 to 08/17/2020.

If you return to the course at a later time and you have completed some portion of the course, you will click **Launch** again to return to where you left off.

This screenshot shows the same course card as above, but now the progress bar is at 33% and the button is labeled 'Launch' instead of 'Launch Prework'. The 'Not Started' label is gone.

Follow the on-screen prompts to continue through the course, i.e. choose **Next** to begin the course module.

The screenshot shows the course interface. On the left is a sidebar with a list of items: 'CEOL41PH Removing Barriers to Achieve Your Population Health Management Goals' (selected), 'CEOL41PH Removing Barriers to Achieve Your Population Health Management Goals', and 'CEOL41PH Post test'. The main content area has a blue header with the course title and instructions: 'Please click the "Next" below to begin your course module. Continue to click the grey "Next" to proceed through the course materials to include the course content survey. Once the audio course begins, please use the blue navigation controls within the module window to play, pause, and review previous/next screens, etc. through the complete the module. Once you successfully complete all course requirements, you will receive your CME/CE certificate. Click on "Learning" above to return to your learning center at any time. Thank you!'. At the bottom is a navigation bar with buttons for 'Exit', '?', 'Email', 'Course', 'Previous', and 'Next'. The 'Next' button is highlighted with a yellow circle.

Click on the **Resources** tab to view or download presentations/handouts.
